- **Import** this discreet logo:

- **In** Composite Settings, enable Shading and Shadows

- **In** the Transform properties of *onickz-forum-discreet*, rotate Z to -1.50. Change the Position to X=87, Y=50

- **In** the Layer Properties of this same layer, Enable Stained Glass and Enable Invis. to Camera

- **Go** back in Transform properties and set Position Z to -111

You should exactly see this result:

All,

Do not hesitate to ask questions if you need, or to critic this tutorial. A forum is made to discuss and you are invited to 😊
